

Patient and Family Advisory Council (PFAC) Annual Report Form

Patient and Family Advisory Councils (PFACs) are an integral part of health care organizations. All licensed hospitals, as well as accountable care organizations devoted to MassHealth members, are required to convene a PFAC on a regular basis and tap its members' expertise and lived experience to help the health care organization better meet the needs of its patients.

The Betsy Lehman Center for Patient Safety oversees PFAC work in Massachusetts. Read more [on the Center's website](#).

Use this form to capture the essential activities of your PFAC during the past fiscal year (July 1 – June 30) and submit to the Betsy Lehman Center by October 1. If your hospital has multiple PFACs, please fill it out for the work of your hospital-wide PFAC, and use the last section to describe the work of any additional PFAC groups. The Center will generate a report from the information submitted and return it to you to distribute throughout the organization and post to your organization's website. The Center will also aggregate information and share an annual report of all PFAC activities in the state.
